Commenting on EastGroup's performance, Marshall Loeb, CEO, stated, "Our first quarter results demonstrate the strength and depth of our team, the quality of our portfolio and the continued health within the broad industrial market. We are reaping the rewards from both a strong economy and the persistent favorable evolution within the last mile logistics market. The advancing shift for distribution to be closer to the consumer and ideally, a growing consumer base is an affirmation of our in-fill, shallow bay, Sunbelt operating strategy."

For the quarter ended March 31, 2019, funds from operations attributable to common stockholders ("FFO") was \$1.20 per share compared to \$1.14 per share for the same quarter of 2018, an increase of 5.3%. The Company initially reported FFO of \$1.16 per share during the first quarter of 2018. In connection with the Company's adoption of the Nareit Funds from Operations White Paper - 2018 Restatement, the Company now excludes from FFO the gains and losses on sales of non-operating real estate and assets incidental to the Company's business and therefore adjusted the prior year results, including the Company's FFO for 2018, to conform to the updated definition of FFO.

PNOI increased by \$4,945,000, or 9.6%, during the quarter ended March 31, 2019, compared to the same period of 2018. PNOI increased \$2,492,000 from newly developed and value-add properties, \$1,852,000 from same property operations (based on the annual same property pool) and \$822,000 from 2018 acquisitions; PNOI decreased \$276,000 from operating properties sold in 2018 and 2019.

The annual same property pool PNOI (excluding income from lease terminations) increased 3.7% for the quarter ended March 31, 2019, compared to the same quarter in 2018; on a cash basis (excluding straight-line rent adjustments and amortization of above/below market rent intangibles), same PNOI increased 4.5%. The annual same property pool for the first quarter of 2019 includes properties which were included in the operating portfolio for the entire period from January 1, 2018 through March 31, 2019; this pool is comprised of properties containing 36,948,000 square feet.

Rental rates on new and renewal leases (4.1% of total square footage) increased an average of 14.2% for the first quarter.

FFO, PNOI and Same PNOI are non-GAAP financial measures, which are defined under Definitions later in this release. Reconciliations of Net Income to PNOI and Net Income Attributable to EastGroup Properties, Inc. Common Stockholders to FFO are presented in the attached schedule "Reconciliations of GAAP to Non-GAAP Measures."

ACQUISITIONS AND DISPOSITIONS

In January, EastGroup completed the sale of World Houston 5 for \$3.8 million. The 51,000 square foot, single-tenant building was constructed in 1993. The Company recognized a gain on the sale of \$2.3 million, which is included in Gain on sales of real estate investments; this gain is excluded from FFO.

EastGroup is under contract to acquire Logistics Center 6 & 7, which contains a total of 142,000 square feet of multi-tenant distribution space in two buildings in Dallas. The buildings, which are located in a master-planned park on DFW International Airport-owned property with a 40-year ground lease, were developed in 2018 and are currently 19% leased. EastGroup anticipates closing the \$13 million acquisition in late April, and the Company estimates its total investment in the property, including improvements during the lease-up phase, will be approximately \$15 million.

The Company has exercised an option to re-purchase Interstate Commons Distribution Center in the southwest submarket of Phoenix for \$9.2 million. Through eminent domain procedures, the Company previously sold the property to the Arizona Department of Transportation in 2016. The two multi-tenant distribution buildings, which are located adjacent to existing EastGroup assets, contain 142,000 square feet and will be re-developed by the Company with a projected total investment of \$12 million. The value-add acquisition is expected to close during the second quarter of 2019.

EastGroup is under contract to acquire, with a joint venture partner, 7 acres of land in the central submarket of San Diego for \$13 million; the Company will be a 95% partner in the venture. The Company expects the land acquisition to close during the second quarter of 2019. The land is currently leased to a company that operates a parking lot on the site. In the future, EastGroup and its joint venture partner plan to develop a distribution building containing approximately 125,000 square feet.

DEVELOPMENT AND VALUE-ADD PROPERTIES

During the first quarter, EastGroup began construction of five development projects in five different cities, all of which are located in existing EastGroup parks. The buildings will contain a total of 650,000 square feet and have projected total costs of \$65 million.

EastGroup declared cash dividends of \$0.72 per share in the first quarter of 2019. The first quarter dividend, which was paid on April 15, 2019, was the Company's 157th consecutive quarterly cash distribution to shareholders. The Company has increased or maintained its dividend for 26 consecutive years and has increased it 23 years over that period, including increases in each of the last seven years. The annualized dividend rate of \$2.88 per share yielded 2.6% on the closing stock price of \$110.69 on April 18, 2019.

FINANCIAL STRENGTH AND FLEXIBILITY

EastGroup continues to maintain a strong and flexible balance sheet. Debt-to-total market capitalization was 21.5% at March 31, 2019. For the first quarter, the Company had interest and fixed charge coverage ratios of 5.97x and a debt to earnings before interest, taxes, depreciation and amortization for real estate ("EBITDAre") ratio of 5.30x.

During the first quarter, EastGroup issued and sold 232,205 shares of common stock under its continuous equity program at an average price of \$107.66 per share, providing gross proceeds to the Company of \$25.0 million.

In March, the Company closed \$80 million of senior unsecured private placement notes with an insurance company. The notes have a 10-year term and a fixed interest rate of 4.27% with semi-annual interest payments. The notes will not be and have not been registered under the Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements.

Subsequent to quarter-end, EastGroup repaid a mortgage loan with a balance of \$46.0 million, an interest rate of 7.5% and an original maturity date of May 5, 2019.

(1) *The Company initially reported FFO of \$4.67 for the year 2018. In connection with the Company's adoption of the Nareit Funds from Operations White Paper - 2018 Restatement, the Company now excludes from FFO the gains and losses on sales of non-operating real estate and assets incidental to the Company's business and therefore adjusted the prior year results, including the Company's FFO for 2018, to conform to the updated definition of FFO.*

(2) *Includes properties which have been in the operating portfolio since 1/1/18 and are projected to be in the operating portfolio through 12/31/19 (annual same property pool); includes 36,762,000 square feet.*

DEFINITIONS

The Company's chief decision makers use two primary measures of operating results in making decisions: (1) property net operating income ("PNOI"), defined as Income from real estate operations less Expenses from real estate operations (including market-based internal management fee expense) plus the Company's share of income and property operating expenses from its less-than-wholly-owned real estate investments, and (2) funds from operations attributable to common stockholders ("FFO").

FFO is computed in accordance with standards established by the National Association of Real Estate Investment Trusts ("Nareit"). In December 2018, Nareit issued the "Nareit Funds from Operations White Paper - 2018 Restatement" (the "2018 White Paper"), which reaffirmed, and in some cases refined, Nareit's prior determinations concerning FFO. The guidance in the 2018 White Paper allows preparers an option as it pertains to whether gains or losses on sale, or impairment charges, on real estate assets incidental to a REIT's business are excluded from the calculation of FFO. EastGroup has made the election to exclude activity related to such assets that are incidental to our business. The Company has revised prior periods to reflect this guidance. FFO is calculated as net income (loss) attributable to common stockholders computed in accordance with U.S. generally accepted accounting principles ("GAAP"), excluding gains and losses from sales of real estate property (including other assets incidental to the Company's business) and impairment losses, adjusted for real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

PNOI and FFO are supplemental industry reporting measurements used to evaluate the performance of the Company's investments in real estate assets and its operating results. The Company believes that the exclusion of depreciation and amortization in the industry's calculations of PNOI and FFO provides supplemental indicators of the properties' performance since real estate values have historically risen or fallen with market conditions. PNOI and FFO as calculated by the Company may not be comparable to similarly titled but differently calculated measures for other real estate investment trusts ("REITs"). Investors should be aware that items excluded from or added back to FFO are significant components in understanding and assessing the Company's financial performance.

EastGroup sometimes refers to PNOI from Same Properties as "Same PNOI" in this press release and the accompanying reconciliation. The Company presents Same PNOI as a property-level supplemental measure of performance used to evaluate the performance of the Company's investments in real estate assets and its operating results on a same property basis. Same Properties is defined as operating properties owned during the entire current period and prior year reporting period. Properties developed or acquired are excluded until held in the operating portfolio for both the current and prior year reporting periods. Properties sold during the current or prior year reporting periods are also excluded.

The Company's chief decision makers also use Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate ("EBITDAre") in making decisions. EBITDAre is defined as Net Income, adjusted for gains and losses from sales of real estate investments, non-operating real estate and other assets incidental to the Company's business, interest expense, income tax expense, depreciation and amortization. EBITDAre is a non-GAAP financial measure used to measure the Company's operating performance and its ability to meet interest payment obligations and pay quarterly stock dividends on an unleveraged basis.

EastGroup's chief decision makers also use its Debt-to-EBITDAre ratio, a non-GAAP financial measure calculated by dividing the Company's debt by its EBITDAre, in analyzing the financial condition and operating performance of the Company relative to its leverage.

The Company's interest and fixed charge coverage ratios are non-GAAP financial measures calculated by dividing the Company's EBITDAre by its interest expense. These ratios provide a basis for analysis of the Company's leverage, operating performance, and its ability to service the interest payments due on its debt.
